Item	Part Number	Description	Qty	Price	Estimated Annual Use
1	303013001	CR 124 PTA 1KG	5	n/a	10
2	303008011	CR PTB	5	n/a	10

## Detailed Description of End-Use (Technically, how will the product(s) be used?)

Include details such as:

- Operating frequency or bandwidth
- Where will the absorber be incorporated/ assembled
- To whom will the finished assembly be sold

- The CR-124 and CR-PTB material will be used to create filters used for inhouse research.
- The 3 dB bandwidth of so far planned filters will be around 300-1000 MHz. Future projects might include bandwidths around 4-8 GHz.
- Finished assembly will not be sold.

# End-Use Statement

(For use with Export License Applications)

Customer understands that the products offered for sale by Laird are subject to U.S. export controls and that Customer is responsible for compliance with those laws and regulations. Further, Customer certifies that the product(s) identified above:

- Will not be used in the direct or indirect support of weapons of mass destruction (i.e. chemical, nuclear, or biological weapons) or the missile technology to deliver such weapons.
- Will not be sold or transferred in any way to any individual or entity not authorized to receive the products by a U.S. individual validated export license or license exception.
- Will not be exported or re-exported to any country, or any individual from a country, under U.S. embargo or sanction without prior authorization from the U.S. Government
